Membership Benefits explained

Occurrence-based membership

MDDUS membership is provided on an occurrence basis, meaning that you can seek assistance for matters arising from an incident that occurred during your membership, no matter when it comes to light. There is no need for members to purchase "run off" cover or "extended reporting rights", as would be usual in a claims-made insurance policy.

Unlimited indemnity

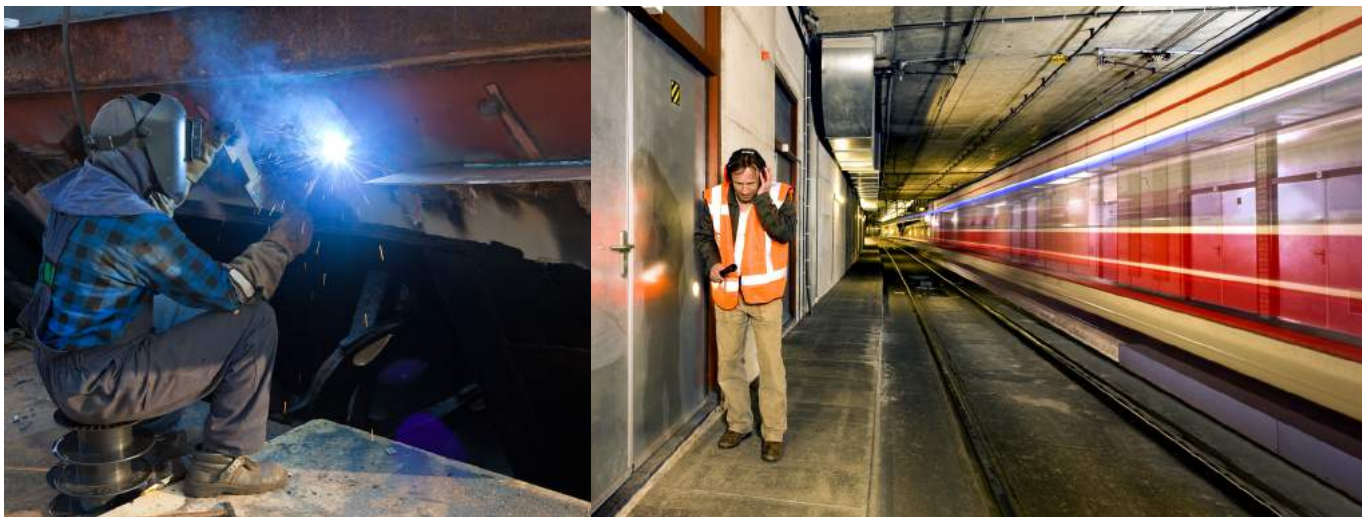

Unlike some commercial insurance policies, there is no limit on the indemnity that MDDUS will provide in respect of a claim.

Discount for SOM

MDDUS is pleased to offer SOM members a 5% discount on our standard occurrence based subscription rates.

Eligibility

In order to qualify for membership MDDUS traditionally required members to be on the relevant GMC specialist register or on the GP register. However, we recognise that occupational health physicians may come from a range of clinical backgrounds and therefore we will consider applications from doctors who are not on the GP or specialist register. As a guide, doctors would be expected to hold at least the Diploma in Occupational Health and be able to demonstrate two years' experience of working in occupational medicine.
