

**Job Title:** Occupational Health Physician

**Company:** D4Group (D4Drivers & D4Health)

**Contract:** Permanent; Part-Time/Full-Time/Ad Hoc

**Location:** Work from home and various clinic locations nationwide

## About Us

D4Drivers and D4Health are leading providers of medical assessments and occupational health services across the UK. D4Drivers is the UK's largest provider of driver medicals and serves drivers and companies in various sectors of the logistics industry, with 111 clinic locations nationwide. D4Health provides a comprehensive range of occupational health services specialising in absence management.

## The Role

This dual role involves delivering combined driver medical and occupational health clinics on-site at our client's premises on a weekly or fortnightly basis. You will attend locations in your area, but additional sessions will be available for those willing to travel further afield. There will also be the opportunity to conduct assessments remotely from home via Teams or Skype.

## Expectations

- **Consultations:** You will conduct DVLA D4 medical assessments in accordance with Group 2 and company guidance. You will conduct absence management assessments and provide clear, concise, expert advice and reports to our client to support case management.
- **Service Levels:** You will complete and provide details of all assessments promptly and in accordance with contractual obligations and service level agreements. You will complete all driver medical reports and provide feedback as to the outcome within 24 hours. You will complete occupational health reports same day (if on-site) or within 48 hours if working remotely.
- **Communication:** You will liaise promptly with our administrative teams, confirming sessions in advance to support our forward planning, notifying us of issues or queries during your appointments, and assist with any queries we may receive relating to your work.
- **Reliability:** You will attend all confirmed sessions and appointments on time and not request last minute changes or cancellations to ensure we maintain our strong reputation for reliability and in return will be prioritised for additional work, when available.
- **Customer Service:** You will ensure that our clients and patients receive the best possible standards of service and that you are an ambassador for our company, building on the existing trust and excellent relationships we have with our clients.

## Why Work with D4Group?

- **Enhance Your Income:** Our panel of over 250 doctors value the ability to enhance their income whilst maintaining full or part-time roles elsewhere in the healthcare sector, with competitive rates of pay and the opportunity to further increase their earnings by accepting additional sessions which are regularly available.
- **Flexibility:** This role will allow you to balance your workload with other professional or personal commitments. You can vary your availability month to month and subject to giving the required notice, can vary the days and times that you work. Although please be aware there is a minimum commitment of 2 on-site sessions per month, and separately at least 2 hours per month of remote work.
- **Professional Support:** Our experienced senior clinical team led by our Medical Director will support you with a thorough induction and training and will be available to you throughout to ensure you are fully supported. Our Telegram chat group also enables you to liaise with our experienced panel for support and advice during clinics.
- **Administrative Support:** Benefit from full administrative support from our experienced team. We will arrange and confirm your sessions, triage referrals, manage all communication and queries with the client and produce reports and documentation, leaving you to focus on providing our clients and patients with a high level of service and care without administrative burdens.

## Requirements

- GMC registration and license to practice
- Occupational Health Qualification (minimum DipOccMed or AFOM/MFOM)
- Professional indemnity insurance which covers private work of this nature
- Driving License
- Suitable home space for conducting remote consultations
- Laptop and reliable home internet connection

## Medical Assessor:

- **Assessments:** Perform straightforward medical assessments for drivers, including taking blood pressure readings and conducting Snellen eye tests. These assessments are crucial for ensuring drivers meet the necessary health standards for their roles.
- **Medical Questionnaires:** Complete and review medical questionnaires based on patients' medical histories, ensuring thorough and accurate health evaluations.
- **Clinic Sessions:** Flexible clinic hours with sessions pre-arranged via email, allowing you to work as much or as little as you prefer. This flexibility accommodates varying personal schedules and commitments.
- **Training:** Receive comprehensive training and one-to-one guidance on completing DVLA-compliant D4 assessments. This training ensures you are fully prepared to perform your duties to the highest standard.
- **Clinic Locations:** Work in various clinic locations, providing medical assessments to professional drivers. This offers a change of environment and the opportunity to meet a diverse range of patients.

## Benefits

- **Flexible Working Hours:** Choose your own hours and enjoy the flexibility of part-time or full-time work.
- **Increased Income:** Competitive hourly rates ranging from £67.50 to £150 per hour.
- **Administrative Support:** Patients and bookings managed by our Head Office, ensuring a hassle-free experience.
- **Training and Guidance:** Comprehensive training provided, with dedicated support from our staff and Medical Director.
- **Support Network:** Join a network of over 240 doctors, working across more than 85 clinic locations.
- **Additional Opportunities:** Potential for additional face-to-face work at higher rates based on relevant experience.

## Requirements

- **GMC Registration:** Valid and up-to-date.
- **Qualifications:** DipOccMed, AFOM, or MFOM qualification for the Occupational Health Doctor role.
- **Experience:** Minimum of 1 year preferred, but newly qualified OHPs will be considered.
- **Professional Indemnity Insurance:** Mandatory.
- **IT Literacy:** Proficiency with Microsoft Word, Excel, and Teams.
- **Home Office Setup:** A suitable, private environment for conducting video calls, equipped with a webcam and microphone.
- **Responsiveness:** Ability to commit to a 24–48-hour report turnaround.

- **Punctuality and Organisation:** Professional demeanour with strong organisational skills.
- **Enhanced DBS Check:** Required, with assistance available for obtaining this if needed.
