

Cordell Health Specialist Registrar in Occupational Medicine

Overview of the Role

This is an exciting opportunity to join Cordell Health Ltd, a social enterprise delivering new and novel solutions into the workplace wellbeing space. We have a position as a Specialist Registrar (StR) in Occupational Medicine covering a variety of sectors across our business.

Occupational Medicine training is delivered over a four-year programme in accordance with GMC requirements for specialist training, starting at ST3. The post will attract an industry National Training Number (iNTN) and provide training towards a Certificate of Completion of Training (CCT) in Occupational Medicine. The successful candidate will be expected to undertake training in Occupational Medicine and to achieve all the competencies as laid down in the Faculty of Occupational Medicine (FOM) Occupational Medicine Specialist Training (OMST) Curriculum 2022, within the accepted timeframe.

The post will ideally be full-time and based at our offices in Bristol, with travel to sites in the local area including South Wales. Consideration will be given to any applicant who may wish to work less than full-time. Applications from those who have already commenced training will be considered.

About Cordell Health

Cordell Health Ltd is a social enterprise specialising in providing early intervention and expert support to HR and managers in the field of workplace health and wellbeing. We partner with our client organisations to help them protect, promote, and support the health of their employees.

Our Vision is to change the focus in the workplace from disability to ability. We aspire to provide a dynamic, sustainable, and ethical way of delivering workplace health and wellbeing.

We are a multi-disciplinary organisation delivering services across a range of sectors which include local government and schools, higher education, healthcare, and companies that are technically expert in areas such as water supply, professional services such as IT, pharmaceutical development, engineering, and biotechnology. We also deliver services to charities and small and medium sized enterprises (SMEs). We have about 70 employees and train occupational health technicians, specialist occupational health nurses, and doctors to be accredited specialists in occupational medicine. Anyone joining the company will need to be dynamic, enthusiastic about health and wellbeing, and client-focused on the delivery of services, enabling us to continue to deliver quality outputs and real value to our customers.

Eligibility - Essential

- Applicants should be eligible to apply for training in Occupational Medicine as defined in the person specification as published by Health Education England (<https://specialtytraining.hee.nhs.uk/portals/1/Content/Person%20Specifications/Occupational%20Medicine/OCCUPATIONAL%20MEDICINE%20%20-%20ST3%202022.pdf>)
- Knowledge of the field of occupational health sufficient to achieve a satisfactory pass at benchmarking for occupational health training
- A valid Driving Licence

Eligibility - Desirable

- Diploma in Occupational Medicine
